**RISK: ___**

# RISK ANALYSIS

**Task, Tool, Equipment, People, Condition:** _____

**Location:** _____ **Date:** _____

**Performed By:** _____ **Manager (initial):** _____

**Risk = likelihood x severity of loss resulting from exposure to hazards. Once the hazards are identified, rate the overall risk as either: H (High), M (Medium) or L (Low). Record the rating in the box in the top left corner. Higher risks require immediate attention and elevated controls.**

| Basic Steps and/or Conditions | Existing or Potential Hazards | Recommended Controls, Corrective Actions |
