

ATLANTIC PILOTAGE AUTHORITY OHS SYSTEM

CONFINED SPACE IDENTIFICATION & HAZARD ASSESSMENT

Pilot Boat: _____

Date: _____

Location/name of space: _____

Reason for entry: _____

Check "YES" or "NO" to each question below. If you check "YES" to question 1 and one or more of the remaining questions, this space may be a "confined space", as defined in the MOSHRs.

- 1. Is the space not designed or intended for human occupancy, except for the purpose of performing work? YES NO
- 2. Does the space have poor ventilation? YES NO
- 3. Could there be an oxygen deficient atmosphere in the space? YES NO
- 4. Could there be an airborne hazardous substance in the space? YES NO

When answering questions 3 & 4:

- consider the space's design, construction, location, and the materials or substances in it.
- consider the work that may be done in the space and how those work methods could contribute to oxygen deficiency or other atmospheric hazards.
- Consider toxic gases & vapours, as well as flammables/combustibles.

Notes (Provide specific information about hazardous atmospheres):

Assessed by: _____
